Skills

- ❖ Proficient in Microsoft Office
- ❖ Robust critical, analytical, and creative thinking skills
- ❖ Articulate and effective communicator (oral and written)
- ❖ Extremely self-motivated and persistent
- ❖ Very quick and adept at learning new skills and systems
- ❖ Detail-oriented, coordinated, and organized

After several years of working at a non-profit, I have decided to return to the world of business. I look forward to combining my demonstrated aptitude for understanding business and financial concepts with the communication, critical thinking, and organizational skills I have honed over my years as a graduate student and an educator. As a mature adult with a family to support, I am looking to “hit the ground running” and immediately make an impact and advance in a new career.

Work History

2018-08 -
